

QUIZ

What is Hugging Face's mission?

To facilitate closed-source, proprietary ML development.

to create free ML resources

to...hug faces?

to democratize good machine learning, one commit at a time.

Good work!

What is the best emoji?

Hugging Face, of course

You got it!

What are Hugging Face Spaces?

Hugging Face Spaces are like chatrooms for ML developers to hang out it.

Hugging Face spaces are when you use the Hugging Face emoji instead of the space character in writing

Spaces is a python library built by Hugging Face to make it easier to create ML-powered apps.

A "Space" is a demo ML app. Anyone can create a Space, and they are hosted on the Hugging Face platform.

Correct!

Suppose you want to find a pre-trained open-source model for an AI Illustration app you are creating. Select the best option for finding such a model of the ones provided below.

The **Diffusers** library, since diffusers are for working with images

The Hugging Face Hub, filtered to the “Unconditional Image Generation” task

Correct! Of course, there are other sources for such models, but the Hugging Face Hub is an excellent choice.

Hugging Face Spaces, and search for an image generation app

Drag and drop each Hugging Face feature with its description!

libraries

: these allow developers to easily import, fine-tune, and use pre-trained open source models.

hub

: a platform for discovering and sharing open-source models and datasets

You got it!
